

**Amendments to the Claims:**

This listing of the claims will replace all prior versions and listings of claims in the application:

**Listing of the Claims:**

1. (Currently amended) A composition comprising, a soy protein material having a lard gel strength of at least 560.0 grams, wherein the soy protein material has a protein content of from about 65.0 weight percent up to 90 weight percent on a moisture free basis and wherein the soy protein material is separated from an aqueous slurry of an alcohol washed soy protein concentrate.
2. (Original) The composition of claim 1, wherein the soy protein material has a lard gel strength of at least 575.0 grams.
3. (Original) The composition of claim 1, wherein the soy protein material has a lard gel strength of at least 600.0 grams.
4. (Cancelled) The composition of claim 1, wherein the soy protein material has a protein content of at least 65.0 weight percent on a moisture free basis.
5. (Original) The composition of Claim 1, wherein the soy protein material has a protein content of from 75.0 weight percent to 85.0 weight percent on a moisture free basis.
6. (Cancelled) The composition of claim 1, wherein the soy protein material has a protein content of at least 90.0 weight percent on a moisture free basis.
7. (Cancelled) The composition of claim 1, wherein the soy protein material is a soy protein concentrate or a soy protein isolate.

8. (Currently Amended) The composition of claim 7 1, wherein the soy protein material has an uncooked emulsification strength of at least 190.0 grams.

9. (Currently Amended) The composition of claim 7 1, wherein the soy protein material has an uncooked emulsification strength of at least 225.0 grams.

10. (Currently Amended) The composition of claim 7 1, wherein the soy protein material has a cooked emulsification strength of at least 275.0 grams.

11. (Currently Amended) The composition of claim ~~40~~ 1 wherein the soy protein material has a cooked emulsification strength of at least 300.0 grams.

12. (Currently Amended) A composition comprising, a soy protein material having an uncooked emulsification strength of at least 190.0 grams, wherein the soy protein material has a protein content of from about 65.0 weight percent up to 90 weight percent on a moisture free basis and wherein the soy protein material is separated from an aqueous slurry of an alcohol washed soy protein concentrate.

13. (Original) The composition of claim 12, wherein the soy protein material has an uncooked emulsification strength of at least 225.0 grams.

14. (Cancelled) The composition of claim 12, wherein the soy protein material has a protein content of at least 65.0 weight percent on a moisture free basis .

15. (Currently Amended) The composition of Claim 44 12, wherein the soy protein material has a protein content of from 75.0 weight percent to 85.0 weight percent on a moisture free basis.

16. (Cancelled) The composition of claim 12, wherein the soy protein material has a protein content of at least 90.0 weight percent on a moisture free basis.

17. (Cancelled) The composition of claim 12, wherein the soy protein material is a soy protein concentrate or a soy protein isolate.

18. (Currently Amended) The composition of claim 47 12, wherein the soy protein material has a lard gel strength of at least 575.0 grams.

19. (Cancelled) The composition of claim ~~48~~ 12, wherein the soy protein material has a lard gel strength of at least 600.0 grams.

20. (Cancelled) The composition of claim 17, wherein the soy protein material has a cooked emulsification strength of at least 275.0 grams.

21. (Cancelled) The composition of claim 20 wherein the soy protein material has a cooked emulsification strength of at least 300.0 grams.

22. (Currently Amended) A composition comprising, a soy protein material having a cooked emulsification strength of at least 275.0 grams, wherein the soy protein material has a protein content of from about 65.0 weight percent up to 90 weight percent on a moisture free basis and wherein the soy protein material is separated from an aqueous slurry of an alcohol washed soy protein concentrate.

23. (Original) The composition of claim 22, wherein the soy protein material has a cooked emulsification strength of at least 300.0 grams.

24. (Cancelled) The composition of claim 22, wherein the soy protein material has a protein content of at least 65.0 weight percent on a moisture free basis.

25. (Currently Amended) The composition of Claim ~~22~~ 24, wherein the soy protein material has a protein content of from 75.0 weight percent to 85.0 weight percent on a moisture free basis.

26. (Cancelled) The composition of claim 22, wherein the soy protein material has a protein content of at least 90.0 weight percent on a moisture free basis.

27. (Cancelled) The composition of claim 22, wherein the soy protein material is a soy protein concentrate or a soy protein isolate.

28. (Currently Amended) The composition of claim ~~27~~ 22, wherein the soy protein material has a lard gel strength of at least 575.0 grams.

29. (Currently Amended) The composition of claim ~~28~~ 22, wherein the soy protein material has a lard gel strength of at least 600.0 grams.

30. (Currently Amended) The composition of claim ~~27~~ 22, wherein the soy protein material has an uncooked emulsification strength of at least 225.0 grams.

31. (Currently Amended) A food product comprising a blend of a soy protein material having a protein content of from about 65.0 weight percent up to 90.0 weight percent on a moisture free basis, wherein the

soy protein material is separated from an aqueous slurry of an alcohol washed soy protein concentrate and having at least one physical property selected from the group consisting of a lard gel strength of at least 560.0 grams, an uncooked emulsification strength of at least 190.0 grams, and a cooked emulsification strength of at least 275.0 grams; and at least one food ingredient.

32. (Original) The food product of claim 31, wherein the food ingredient is an emulsified meat.

33. (Cancelled) The food product of claim 31, wherein the soy protein material is a soy protein concentrate or a soy protein isolate.

34. (Currently Amended) The food product of claim ~~33~~ 31, wherein the soy protein material has a lard gel strength of at least 575.0 grams.

35. (Currently Amended) The food product of claim ~~34~~ 31, wherein the soy protein material has a lard gel strength of at least 600.0 grams.

36. (Currently Amended) The food product of claim ~~33~~ 31, wherein the soy protein material has an uncooked emulsification strength of at least 225.0 grams.

37. (Currently Amended) The food product of claim ~~33~~ 31, wherein the soy protein material has a cooked emulsification strength of at least 300.0 grams.

38. (Original) The food product of claim 31, wherein the food ingredient is soup stock.

39. (Original) The food product of claim 31, wherein the food ingredient is a dairy product.

40. (Original) The food product of claim 31, wherein the food ingredient is a bread ingredient.

Claims 41-49 have been withdrawn from consideration.
